Facial Wear

Version 08.03.1.

About the company

Design Veronique® was founded over 20 years ago by Veronica C. Smith and is committed to designing, manufacturing and providing the finest quality compression garments to doctors, hospitals and patients throughout the world. We will not compromise on product quality or service. All of our garments are designed from the finest quality components and materials and manufactured in our California headquarters to maintain the highest manufacturing quality control standards.

Customers choose Design Veronique® garments because of the **innovative designs**, outstanding quality and superb style. Every garment is designed to combine the correct amount of compression to aid in recovery with **comfort** and style.

Product Line Overview

Design Veronique® has over **85 different styles** of compression garments, available in **three colors** and a size range of **XS through 4XL** for most styles. Design Veronique® compression garments are very different from a pair of cycling shorts, a body girdle or bra you might see in your local store. Our garments are specifically designed for post operative wear and have important features like flat, non-marking seams, **inner panels** that provide the **targeted compression** necessary during healing, and no labels or anything that will irritate your skin during extended wear. To find out more about Design Veronique® garments and the features that make our garments the finest in the world, please visit: www.designveronique.com/features

Ideal for: Facial and neck procedures

Size	Neck Width
M	10 - 16.5"
L	16.5 - 20"

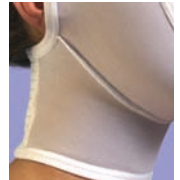

Powernet and combed elastic make this band very cool and extremely comfortable during the recovery phase.

The adjustable velcro head strap allows this band to provide an ideal fit and also gives you the ability to adjust the compression.

The seam on the band is located under the chin to prevent bunching, rolling and provide maximum comfort and contouring.

Contouring seamless chin design keeps incision sites clear and provides a contouring fit.

Latex-free
